

List of meetings

Posted by FFLS - 2014/10/08 18:58

Hello,

menu, I added "List of the meetings." In the frontend, the list is also displayed. The links for the individual dates, extending into space.

Is there a setting that I have overlooked?

German:

Hallo,

im Menü habe ich "List of the Meetings" eingefügt. Im Frontend wird die Liste auch angezeigt. Die Links, für die einzelnen Termine, verlaufen ins Leere.

Gibt es eine Einstellung, die ich übersehen habe?

Re: List of meetings

Your question is not clear.

Do you mean that you don't have the list of meetings displayed ?

The list of the meetings that are displayed can be conditioned by:

- List not published - So verify that you have published the Meeting item
- perhaps that you have specified a list of User IDs. In this case, only those users can see the meeting items
- Perhaps that you have setup the meeting with a specific "User group". In this case, verify that the user that is logged pertain to this group.
- Perhaps also that you have setup a "Start publishing" and/or "Finish publishing" value that are out of the current date.

If this is a problem in the display of the title of the column that would be empty, verify the "title" field in the date proposal. When this field is not empty, it is used to display the proposal date. Otherwise, it is computed based on the "Starting"/"Finishing" date that are provided in the proposal item.
