You must provide at least one recipient email addr Posted by Tom16 - 2015/06/18 10:03 ——————————————————————————————————
Hi,
keep getting the following message: You must provide at least one recipient email address. have Anonymous allowed > yes (but tried with "no" aswell)
also have a problem with refreshing the page when somebody changes availability. It takes almost a minute to change the status.
Any ideas?
Tom
