

You must provide at least one recipient email addr

Posted by Tom16 - 2015/06/18 10:03

Hi,

I keep getting the following message: You must provide at least one recipient email address.

I have Anonymous allowed > yes (but tried with "no" aswell)

I also have a problem with refreshing the page when somebody changes availability.

It takes almost a minute to change the status.

Any ideas?

Tom
