You must provide at least one recipient email addr Posted by Tom16 - 2015/06/18 10:03 Hi, I keep getting the following message: You must provide at least one recipient email address. I have Anonymous allowed > yes (but tried with "no" aswell) I also have a problem with refreshing the page when somebody changes availability. It takes almost a minute to change the status.

Meeting Schedule for joomla -

Any ideas?

Tom
