_____

1) Based on what I understand - there is no issue there or perhaps that the link provided for the (2) would be incorrect.

2) Verify the link attached to the meeting.
Perhaps that there is a SEF extension that would affect the link and would corrupt it.

Perhaps that you could give us the link to the page that would cause you the issue.
If you don't want to publish the link here, you can send us an email with the info and the reference to this post in the forum.
